Tabak GH, Karaduman A, Şener B. Evaluation of serum zonulin levels in patients with recurrent aphthous stomatitis. Turk J Dermatol. 2026;20(1):33-38.

On page 5 of the manuscript, the Conflict of Interest section required revision. Accordingly, the necessary correction has been indicated in bold within the text below.

The uncorrected version is as follows:

Conflict of Interest: The authors declared that they have no conflict of interest.

The corrected version is as follows:

Conflict of Interest: One of the authors, Ayşen Karaduman, is a member of the Associate Editor of the Turkish Journal of Dermatology. However, she was not involved in any stage of the editorial decision-making process for this manuscript. The manuscript was evaluated independently by editors from other institutions. The other authors declare no conflicts of interest.
